

REMOTE BAR CODE READER  
MOUNTING PLATE  
9000/03

The Accu-Time PN 9000/03 External Bar Code Badge Reader Mounting Plate is a black powder-coated, cold-rolled steel plate which allows for mounting of the ATS line of external bar code badge readers. The mounting plate contains two sets of mounting holes for securing the external reader in both an indoor or outdoor installation. The plate also contains an access hole in order to accommodate the bar code reader cable. Reader-to-plate mounting screws are provided.
